# Environmental Awareness and Street Games

*Project № 2023-1-RO01-KA210-000166517*

## FINAL REPORT

**Bulgaria**

*Made by Bozhidar Ivanov*

### **I. Activities**

1. Selection of Teachers
2. Selection of pupils.
3. Creating a Green Council at School
4. Creating an Erasmus Corner at School
5. Creating a brochure
6. Creating Games Sheets
7. Playing Games at School

### **II. Mobilities**

1. Mobility in Romania
2. Mobility in Turkiye
3. Mobility in Hungary
4. Mobility in Italy
5. Mobility in Bulgaria

### **III. Dissemination**

Co-funded by the  
Erasmus+ Programme  
of the European Union

STREET GAMES**

# I. Activities

## 1. Selection of Teachers

In connection with our implementation and participation in the Erasmus project “Environmental Awareness and Street Games”, at the beginning of the project, we formed a team of teachers who would take part in the two-year implementation of the project.

Co-funded by the  
Erasmus+ Programme  
of the European Union

Erasmus+  
ENVIROMENTAL AWARENESS AND  
STREET GAMES

### SELECTION OF TEACHERS

Those are the teachers selected to participate in the ERASMUS + project  
“Environmental Awareness and Street Games” №2023-1-RO01-  
KA210-SCH-000166517. The selection was made after meeting with the  
school community.

**Coordinator:**  
Bozhidar Ivanov

**Participants:**

## 2. Selection of Pupils

In connection with the implementation and our participation in the Erasmus+ project “Environmental Awareness and Street Games”, at the beginning of the project, a selection of students from the school was conducted to participate in the project. The level of English proficiency was tested through interviews with the applicants, in which they had to make presentations in English, after which they had an interview with a committee again in English.

### 3. Creating a Green Council at School

According to the project, we created a Green Council at School which had the task to give ideas for games with ecological topics, play them and distribute the project.

**ENVIROMENTAL AWARENESS AND  
STREET GAMES**

### Selection of members of the Green Council

In connection with the implementation of one of the first tasks A2 – Creating a student council, a selection of students was made to be members of the Green Council. Students of different ages, grades, and majors are included. Through this council, they will be able to develop their social and communication skills. Also teamwork and responsibility skills. Periodically, the council will be given various tasks related to the subject of the project.

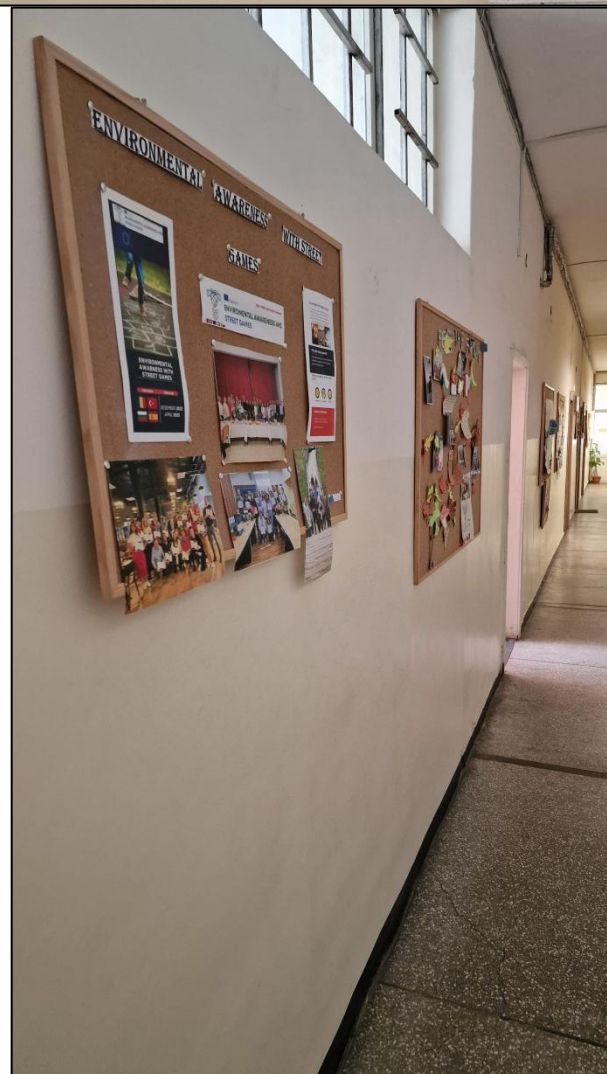

The following students were selected:

|                     |                     |
|---------------------|---------------------|
| Lyuba Atanasova     | Deyan Slaveikov     |
| Radostina Panteleva | Nadezhda Stankova   |
| Ivayla Petrova      | Denis Nikolov       |
| Radoslava Velinova  | Mihaela Ivanova     |
| Yana Amzina         | Elena Ivanova       |
| Martin Chipev       | Raya Ralcheva       |
| Antonia Alexieva    | Daria Yaneva        |
| Kaloyan Nalbantov   | Christiana Gancheva |
| Michaela Dineva     | Evidora Taseva      |
| Ryan Theo Decorte   | Nelly Kiryakova     |
| Darina Alexova      | Nikolai Antonov     |
| Slavena Angelova    | Alexander Mladenski |
| Andrea Stoinovska   | Christian Tsvetkov  |
| Gabriela Dimitrova  | Viktor Filipov      |
| Anelia Yaneva       |                     |
| Vladimir Todorov    |                     |

#### 4. Creating an Erasmus Corner At School

To disseminate and distribute the project we created a corner at school.

Co-funded by the  
Erasmus+ Programme  
of the European Union

**ENVIROMENTAL AWARENESS AND  
STREET GAMES**

## 5. Creating a brochure

Brochures were created to promote the project

### Let we fight the climate change

Environmental issues are becoming increasingly important in today's world, and this project can promote conscious behavior necessary for a sustainable future by increasing awareness about environmental issues in the community

### Why with Street games?

Street games can provide a fun and effective way, especially for students, to increase awareness about environmental issues.

### What you need to do to be part of it?

be possitive

be creative

be brave

### Contact Information

## 6. Creating Games Sheets

According to the project Bulgarian team created 5 games. They are based on an old outdoor games, some of them typical to the Bulgarian culture. They been modified to the needs of our generations and closely related to the environmental problems that we experience today.

### GAME FACT SHEET

## GAME FACT SHEET

### NAME OF ACTIVITY

Eco Scavenger Hunt

### COUNTRY

Bulgaria

### AIM

Using leftover eco-friendly materials. Recycling. Building recycling habits and reusing materials.

### OBJECTIVES (MAXIMUM 3)

## EXPLAIN HOW TO PLAY THE GAME ( 4000 CHARACTERS MAXIMUM)

Create a list of eco-friendly items for participants to find in your local area.

Divide the participants into 2 teams.

Give them 30 minutes for each team to find all their materials. After the time expires, the teams are not allowed to search for more materials.

When they collect their objects with them they have to come up with a composition (it can be a puzzle or some kind of art installation or model) and realize it within 15 minutes.

The team that finishes first wins the competition.

## EQUIPMENT NEEDED

## GAME FACT SHEET

### NAME OF ACTIVITY

Recycle Relay Race

### COUNTRY

Bulgaria

### AIM

Teach people about proper recycling practices in a fun way.

## OBJECTIVES (MAXIMUM 3)

### OBJECTIV 1

### OBJECTIV 2

### OBJECTIV 3

## EXPLAIN HOW TO PLAY THE GAME ( 4000 CHARACTERS MAXIMUM)

Set up a relay race where participants have to sort recyclables into the correct bins as quickly as possible.

Divide the participants into 5 teams.

Make 5 long corridors and place obstacles. At the end of each corridor, place bins for separate waste collection. At the beginning of each corridor, place a pile of different types of waste.

Competitors must correctly sort all the waste from their pile.

The winners are those who complete their task first.

If someone makes a mistake while sorting, they have to repeat the tour and put the waste in the right place.

### EQUIPMENT NEEDED

Recycle bins, different type of waste, cones

### TIME/DURATION

without a fixed time

### EXPLAIN HOW TO PLAY THE GAME ( 4000 CHARACTERS MAXIMUM)

Divide the participants into several teams. Prepare several stations. In the first, the participants have to collect pieces of a puzzle. At the second, they have to arrange the puzzle. In the third, they have to find and place objects related to the puzzle picture.

The game starts with environmental questions for each team. for each correct answer, the team gets a piece of the puzzle. When they collect all the parts, they go to the second station. there they have to arrange their puzzle as quickly as possible. When they are ready, they go to the third station, where they have to place objects related to the picture from the puzzle. The more objects they place, the more points they will have.

The winner is the team that finishes first and has collected the most points

### EQUIPMENT NEEDED

Questions with environmental topic, puzzles, related objects

## II. Mobilities

### 1. Mobility in Romania

The first mobility of the project was held in Galati, Romania, from November 7 to 10, 2023.

All the activities were held under an official program consistent with the activities set out in the project.

| AGENDA DE LUCRU                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | WORK AGENDA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

**ENVIROMENTAL AWARENESS AND  
STREET GAMES**

## 2. Mobility in Turkiye

The second mobility took place in the city of Düzce, Turkey from April 29 to May 2, 2024.

During this period, the games proposed by each country were presented. Outdoor workshops and several tours in the local nature were held.

All the activities were organized according to an official program.

Co-funded by the  
Erasmus+ Programme  
of the European Union

### 3. Mobility in Hungary

The third mobility was in Budapest, Hungary in September 2024.  
The host partner organization introduced us in detail to the structure of  
the Erasmus+ program and we all played some of the selected games.

## 4. Mobility in Italy

The fourth mobility took place in the city of Venice, Italy at the end of January 2025.

Our main task there was to create a manual for each of the 25 games. We got acquainted with the cultural and architectural features of the century-old city. We looked at the innovative halls created in the host school, tailored to the goals of their professional specialties.

## 5. Mobility in Bulgaria

The fifth and last mobility was organized in Sofia, Bulgaria by us in the period 10-13 March 2025. Students from the 5 countries also participated in it. An international "Green Council" was created by the students, with the aim of exchanging good practices. A festival was also held, at which the created games were played.
